

INDIAN SOCIETY OF HYPERTENSION

Hypertension Journal and the year 2024

Narsingh Verma

Department of Physiology, King George's Medical University, Lucknow, UP, India

Great Moments,

The year 2024th first issue brings interesting original studies on various topics such as Sensitivity and Specificity assessment concerning Metabolic Syndrome in HWC/PHC of India, Knowledge, Attitude, and Practices regarding Risk Factors, Prevention and Treatment of Hypertension among Urban Dwellers in Chennai. Further, it publishes reviews on the Effect of Tea, Coffee, Milk, Beer, Wine, Alcohol, Soft Drink, Junk Food and Smoking on Blood Pressure, Synergy Between Hyperuricemia, Obesity, and Hypertension, Influence of Time-restricted Meal Intake on Blood Pressure Variables, and AI in hypertension: A futuristic approach.

With the help and support of our readers, and contributors, we plan to move further in developing journal in terms of indexing development, ethics, and global ranking.

Happy Researching!

The Editor,
Hypertension Journal
