

New Journal with a Dynamic Vision

Abbas Ali Mahdi¹, Hari S. Sharma²

¹Vice Chancellor, Era University, Lucknow, UP, India

²Department of Pathology, Erasmus Medical Center, University Medical Center, Rotterdam, The Netherlands

Great Moments,

We are pleased to bring the first issue of Journal of Academy of Biomedical Sciences presenting a diverse array of groundbreaking studies. Our featured articles span critical topics such as An update on Role of miRNAs in Precancerous Oral Lesions and Oral Squamous Cell Carcinoma, neurological Implications of COVID-19, Unlocking the Potential of Dental Pulp Stem Cells, Optimization of Chondrocyte Propagation from Human Articular Cartilage, study on targeted effects of Adiponectin isoforms in human health. It further publishes interesting review on Vitamin D, the Platelet Cargo.

This issue also addresses crucial issues such as Vitamin C Insufficiency in India which is an underestimated Public Health concern.

We extend our heartfelt gratitude to our readers and contributors for their invaluable support and dedication. We continue to enhance the journal's development, focusing on indexing, ethical standards, and overall quality.

We look forward to further advancing our mission and wish you happy and impactful researching!
